FOR IMMEDIATE RELEASE

DeKalb Clerk of Superior Court Implements Innovative Land Record System

DECATUR, GA – DeKalb County Superior Court Clerk Debra DeBerry implements innovative land record system to replace the legacy infrastructure. The new and necessary technology will add efficiency to the internal and external management of land records and is specifically developed to manage the extensive number of land records maintained and managed by the Clerk. The newly integrated system allows for the digital management of the entire process, from recording, indexing and verification to public searching. The new system goes live on Monday, October 16, 2023.

“Our office is pleased to offer our partners to include businesses, constituents, and internal government departments this state-of-the-art client and public web-based access. We worked seamlessly with the DeKalb Technology and Innovation Department and Catalis, and are grateful for their partnership,” DeBerry states.

Additionally, the new land record system will enhance the Property Fraud Registry Alert System. The system is designed to provide property owners with the ability to register and receive alerts anytime there is a recording on the property.

Catalis is a national firm and an approved vendor by GSCCCA with an established track record working with Georgia Clerk’s Offices.
